To General Director of  
LLC "Butler TECH International"  
Y.A. Sukhorukov

26 V Bolshaya Pochtovaya Street, Building 2, Moscow, 107082

28.09.2015 № 14-00-07.2096

To № 08-09.15 dated 07.09.2015

Explanation

Department for Supervision over Oil and Gas Industrial Facilities has examined the appeal of the general director of LLC "Butler TECH International" Y.A. Sukhorukov and reports.

Pursuant to the requirements of section 718 of Federal rules and regulations in the field of industrial safety "Safety Rules in oil and gas industry", confirmed by the order of Rostekhnadzor dated 12.03.2013 № 101 (in revision by the order of Rostekhnadzor dated 12.01.2015 № 1), registered in the Ministry of Justice of the Russian Federation dated 19.04.2013 № 2822, material and manner (construction) of connection of field pipelines are established by the project documentation. Engineering solutions concerning the choice of the type, mode and material of construction of mechanical connections are also substantiated in the project documentation.

Correctness of the technical solutions taken is estimated by the positive results of the performed technical expert examinations, approved under established procedure.

Please, be informed, that on 01.01.2014 particular provisions of the Federal Law dated 04.03.2013 № 22-ФЗ "On making amendments to the Federal law "On Industrial Safety of Hazardous Production Facilities", particular legislative acts of the Russian Federation came into effect, and be informed, concerning the Annulment of subparagraph 114 of paragraph 1 of the clause 333.33 of the second

part of the Russian Tax Code”, regulating the exploitation of the technical equipment in the hazardous Production Facilities, for which reason the Administrative provision of the Federal Service for Environmental, Technological and Nuclear Supervision concerning fulfillment of the state function of issuing permissions for the usage of specific kinds (types) of the technical equipment in the hazardous production facilities, approved by the order of Rostekhnadzor dated 29.02.2008 № 112, registered in the Ministry of Justice of the Russian Federation on 19.03.2008 registration № 11363, ceased to be in force and effect.

Therefore starting January 1, 2014, the state service of issuing the permits of Rostekhnadzor for the use of the technical equipment in the hazardous production facilities, has been cancelled.

Contemporarily be informed that in accordance with the requirements of Article 7 of the Federal law dated 21 of July 1997 № 116-Φ3 “On Industrial Safety of Hazardous Production Facilities” the obligatory requirements to the technical equipment, used in the hazardous production facilities, and forms of appraisal of their conformity to the stated obligatory requirements are established according to the laws of the Russian Federation concerning technical regulation.

If by the technical regulation another form of appraisal of the technical equipment conformity to the obligatory requirements of such technical equipment, used in the hazardous production facility, not established, it has to be subjected to the industrial safety expert examination.

Head of Department for Supervision  
over Oil and Gas Industrial Facilities
